The school's curriculum, along with events like Sports Day, annual functions, and festive celebrations for Diwali, Holi, and Christmas, has greatly contributed to my child's mental and emotional development. Creative activities such as card-making, Rakhi-making, and wall-hanging creation have enhanced my child's artistic skills and creativity. I am sincerely grateful to the teachers, coordinators, and administration for their constant support and dedication. As a parent I would like to express my gratitude to the institution MCS that is satiating the need of value based education and emotional intelligence with remarkable endeavours. Seeing my child singing rhymes and chanting mantras in delight, seeing her expressing the joy of learning, with the updates of technologies I must say the efforts made by the respected teachers are showing vibrant colours. Variations of themes in activities organised, academic schedules, sports and recreation, are the factors that ensure my child's holistic development, and overall growth.

The kids wing specially, where I see my kid as a little bud is surely getting the best shine and warmth from the respected teachers as the nurturers. we as parents appreciate the way every detail is given beforehand, our each and every query or concern is addressed and resolved by the respected coordinator, teachers and management.

Furthermore, Instilling values through celebration of festivals and significant days, Assembly prayers, rhyme session, learning through activities, giving her the platform to perform and express herself, makes it the safest place on which I can rely upon. We are truly thankful to all the team of experts as teachers for moulding her to bring out the best of her and to make her future ready.

Regards and Best wishes for future prospects.

As a parent of a 4th-grade student, I am pleased with the learning environment and the overall development opportunities provided by the school. The teachers are dedicated, approachable, and ensure that the children grasp concepts effectively. The focus on extracurricular activities alongside academics helps in nurturing the child's creativity and confidence. However, I would suggest providing more interactive sessions or workshops for students to make learning more engaging. Additionally, enhancing the use of technology in classrooms can prepare the students for the modern educational landscape.

Overall, the school is doing a commendable job, and I look forward to seeing my child grow academically and personally under its guidance.
